Dear Valued Customer,

January 2009
Our 211th year

Thank you for your continued loyalty and valued business in these trying times. All of us at Alan McIlvain Company are focused and committed to bringing success to your business with our highest quality hardwood lumber, custom mouldings and superior service. With over 200 years of experience in the lumber business and as one of America's oldest family businesses, we know and are confident that together we will ride out this recession. Working together to best serve each of our customers will sustain us all to better times. Our experienced sales and manufacturing staff with our large and varied hardwood inventory is dedicated to meeting your most demanding requirements.

It's all about providing you the best value, yield, and service. Only then do we succeed together!

What a difference a year makes! We began 2008, our 210th year, with record sales and finished in a recession. For 2009 we have developed and improved our operations to serve you better with the following:

- **Increased inventory to over 7,000,000 Board Feet of the finest Northern Appalachian and Imported Tropical Hardwoods. All carefully kiln dried, graded, width and length sorted; with each board laser measured and end labeled with that measurement.**
- **Multi-million dollar expansion/renovation of our Rough Mill with the installation in November of a Raimann movable blade optimizing rip saw system.**
 - **The upside – increased ripping accuracy, productivity and higher yield.**
 - **The downside – Having our usual 1 week or less moulding lead time stretch to 2 weeks during the November and December installation.**
- **Increased our fleet of tarpside trailers to 12, to better, and quicker, serve you.**

We've done it all for you: A larger higher quality inventory for your just-in-time needs, increased mill capacity and speed for S2S, S4S, Rip 1 Edge, R2E, random width Rip 2 Edges and your stock and custom mouldings, and improved our prompt delivery service throughout the Northeast and MidAtlantic.

Wishing you success,

Alan McIlvain, Jr. Gordon McIlvain Mark Schumann Page Allinson
